**LinkedIn:** <https://linkedin.com/emelipasini>

## Professional Profile

---

Experienced Full Stack Developer adept in all stages of advanced web development. Proficient in an assortment of technologies, including Node, TypeScript and PostgreSQL.

## Work History

---

Apr 2022 - Jul 2023

### Junior Full Stack Developer

Geosystems S.A. · <https://www.geosystems.com.ar/en/>

A company specialized in geographic information systems.

- Developed an API using ASP.NET, bridging communication between systems and facilitating data exchange, resulting in improved efficiency and streamlined processes.
- Built a Python based API that seamlessly integrated with a PostgreSQL database, enabling real-time data retrieval and manipulation for enhanced system functionality.
- Introduced standardized coding conventions to the development team, leading to increased collaboration and code readability, resulting in more efficient bug identification and resolution.
- Upgraded an npm package to a newer version of React, strengthening the package with a more robust architecture and improved performance, while also transitioning from JavaScript to TypeScript and from CSS to SCSS.

Sep 2021 - Mar 2022

### Unemployed

Actively looking for a new job. At my last company, the boss asked us to start freelancing and we decided to leave.

Got married and went on a honeymoon.

Feb 2021 - Aug 2021

**Junior Backend Developer**

Ulthar Software · <https://ultharsoftware.com>

A small company that builds custom software solutions.

- Developed an API in Node.js using Serverless, TypeScript, and MongoDB, with a strong emphasis on both functionality and performance.
- Implemented a test-driven development approach using Jest, ensuring the reliability and functionality of the project.
- Collaborated with team members to provide mutual support and assistance, leading to increased productivity and efficiency within the team.

Feb 2020 - Jun 2021

**Adjunct Professor**

Digital House · <https://www.digitalhouse.com/ar>

A company that provides programming courses.

- Advised students with exercises, resolving doubts, providing support, encouraging teamwork and pair programming.
- Evaluated the integrative projects that are carried out throughout the course and where students practice all the given topics.

## Skills

---

**Languages:** Spanish, English and learning German.
